

# Heaven

## UNKLE

Where's the Seraphim?  
Where's the money that we made?  
Where's the open gate?  
Where's the fortune that we saved? Heaven's here for you and me  
With every falling curl  
Heaven's here for you and me  
we gained ourselves the world Hit the Motorway  
I can take it all and speed  
I got everything  
I got everything you need  
Heaven's here for me and you  
scattered round with pearls  
Heaven's here for me and you  
we gained ourselves the world Where's the warrior of light  
with gates of solid gold  
Paranoia through the fight  
with dreams that never fail  
Heaven's here for me n you... Heaven's here for me and you  
scattered round with pearls  
Heaven's here for me and you  
we gained ourselves the world Heaven's here for me and you  
we gained ourselves the world
