

# You're All That Matters to Me

**Curtis Stigers**

I make mistakes like any man  
But I try to love you best I can  
    I can't convince you  
    Though heaven knows I try  
    I've tried to make you see  
To make you believe You're all that matters to me  
    The ground that you walk  
    The air that you breathe  
    Someday you'll discover  
I don't want no other, believe me  
    You're all that matters, baby  
    All that matters to me  
I know that you've been hurt before  
But that won't happen anymore, no no  
    Just give your heart to me  
    And I'll guard it with my life  
    I don't know what I'd do  
Baby, without you You're all that matters to me  
    The ground that you walk  
    The air that you breathe  
    Someday you'll discover  
I don't want no other, believe me  
    You're all that matters, baby  
    All that matters to me  
    People looking for paradise  
Well, baby, I know that I found mine  
    And if you don't believe it, baby  
    Take a look at the love in my eyes  
    Oh I'll be with you, baby  
    'Til the end of time  
    I'll be alright, baby  
Just as long as you're mine You're all that matters to me  
    The ground that you walk  
    The air that you breathe  
    Someday you'll discover  
I don't want no other, believe me  
    You're all that matters, baby  
All that matters to me You're all that matters to me  
    The ground that you walk  
    The air that you breathe  
    Someday you'll discover  
I don't want no other, believe me

You're all that matters, baby  
All that matters to me You're all that matters to me  
The ground that you walk  
The air that you breathe  
Someday you'll discover  
I don't want no other, believe me  
You're all that matters, baby  
All that matters to me
