

Falling

Yuna

Its been a long day
I can't seem to keep up with it
I want to fall asleep
So I don't have to remember! Don't have to call me, I turned my phone off
Let the pillows here protect my heart
No don't have to check up on me, I'll be alright
I turned off the lights and swim into the night. I keep falling
I keep falling, uh
I keep falling
I keep falling apart!
I keep falling (falling)
I keep falling (falling)
I keep falling (falling)
I keep falling for you!
I wanna forget
All this burden in my past
I want to fall asleep
So I don't have to remember! Don't have to call me, I turned my phone off
Let the pillows here protect my heart
No don't have to check up on me, I'll be alright
I turned off the lights and sweep into the night. I keep falling
I keep falling, uh
I keep falling
I keep falling apart!
I keep falling (falling)
I keep falling (falling)
I keep falling (falling)
I keep falling for you!
Rain will start to fall
I forget it, I forget it all!
Rain will start to fall
I forget it, I forget it all!
Rain will start to fall
I forget it, I forget it all!
Rain will start to fall
I forget it, I forget it all! Don't have to call me, I turned my phone off
Let the pillows here protect my heart
No don't have to check up on me, I'll be alright
I turned off the lights and sweep into the night. I keep falling
I keep falling, uh
I keep falling
I keep falling apart!

I keep falling (falling)
I keep falling (falling)
I keep falling (falling)
I keep falling for you!
