

# Good Things Happen

[Dierks Bentley](#)

The world is cold but I don't care, when you have flowers in your hair  
I see color and I hear sound, and good things happen when you're Around  
I work hard for not much pay, so I can know that you'll be okay  
Cause I need to live where love abounds, and good things happen when you're Around  
So won't you wait for me, I'll be home soon  
Wait for me, I'll only be a day or two (musical interlude) Won't you wait for me, I'll be home soon  
Yea, Wait for me, I'll only be a day or two  
The world is cold but I don't care, when you have flowers in your hair  
I see color and I hear sound, and good things happen when you're around  
I work hard for not much pay, so I can know that you'll be okay  
Cause I need to live where love abounds, and good things happen when you're around  
Good things happen when you're around
