Come Clarity

In Flames

Rushing through 30 Getting older every day my soul drawing pictures of innocent times Can you add color inside these lines?I want you to lead me Take me somewhere Don't want to live in a dream one more dayI want you to lead me Take me somewhere Don't want to live in a dream one more day Sure, if i would change my perspective I'm certain I would change today I'm certain it will change our ways Would things fall into placeI want you to lead me Take me somewhere Don't want to live in a dream one more dayI want you to lead me Take me somewhere Don't want to live in a dream one more day I want you to lead me Take me somewhere Don't want to live in a dream one more day I want you to lead me Take me somewhere Don't want to live in a dream one more day Take me somewhere Don't want to live in a dream one more day
