## **Keep It Mello (feat. Omar LinX)**

## Marshmello & Omar LinX

Woke up and just felt right

Phone blown like a tailpipe

Today's schedule air tight

I turn a short day into a long night

See you soon if you got the heart

Meet you outside reny parkHurry up it it's gettin dark

We don't say too much

And that says a lot

Hoped into that old benz

Drive through where that road ends

Good times with some old friendsI got just the thing if you so tense

Burn one lets go do some

Got me stoned as medusa

Zoned out with a blank stare

I'm lookin into the futureHold up ain't nothing gonna hold us

Put the devil to the sideGot an angel on my shoulder

And I'm like hello

It's good to finally let goI ain't worried bout a thing

I just like to keep it mello

Yea I like to keep it melloI smoke and keep it melloI drink and keep it mello

Everyday I keep it mello

Everyday I keep it mello

I smoke and keep it mello

I drink and keep it mello

Everyday I keep it mello

Everyday I keep it mello

Mello, mello...

It's like 4 am and I'm bored again

When that 40 endWhen that dream team all

Played out and they hit bench

I just step back lemme soak it in

I've seen the ups and downs

So I get it now, I was born to winIt's my time bout time, my turn I can't lie

Waiting for that one spark

My one hope to catch fire

I'm fine, I'm highLight rain through the sunshine

Tryin to man this old boat

I'm the captain now and it's crunch time

I don't care if I'm gettin paid

Need the week but I get the day

Wide awake when I need sleepI'm knee deep but I set the way

Focused on that one mistake let it free don't let it break

Fuck it all, I'm turning in My celly's off the great escape Hold up ain't nothing gonna hold us Put the devil to the side Got an angel on my shoulder And I'm like hello It's good to finally let go I ain't worried bout a thing I just like to keep it mello Yea I like to keep it mello I smoke and keep it mello I drink and keep it mello Everyday I keep it mello Everyday I keep it mello I smoke and keep it mello I drink and keep it mello Everyday I keep it mello Everyday I keep it mello I smoke and keep it mello I drink and keep it mello Everyday I keep it mello Everyday I keep it mello I smoke and keep it mello I drink and keep it mello Everyday I keep it mello Everyday I keep it mello I smoke and keep it mello I drink and keep it mello Everyday I keep it mello Everyday I keep it mello I smoke and keep it mello I drink and keep it mello Everyday I keep it mello Everyday I keep it mello I smoke and keep it mello I drink and keep it mello Everyday I keep it mello Everyday I keep it mello I smoke and keep it mello I drink and keep it mello Everyday I keep it mello Everyday I keep it mello I smoke and keep it mello I drink and keep it mello Everyday I keep it mello Everyday I keep it mello
