

Robin Hood

Ocean Colour Scene

When you're starting to choke take some pills with your coke
It's inspirational
When you're life is a mess light one more cigarette
It's so logical Well it's something your mother can't abide
But it's something that I freely prescribe
Take yourself for a ride
It never felt so good
As the night that you and I played Robin Hood
Stealing from the backrooms of our minds
Remembering a time when we were fine
A time I thought we'd left behind
When you're starting to cry
Come and sit by my side
I will love you so
When the nightmares come
I will try to be fun, even though
I'm so scared you know
Well it's something your mother can't abide
But it's something that I freely prescribe
Take yourself for a ride
It never felt so good
As the night that you and I played Robin Hood
Stealing from the backrooms of our minds
Stealing from a time when we were fine
A time I thought we'd left behind
Stealing from the backrooms of our minds
Stealing from a time when we were fine
A time I thought we'd left behind
Stealing from the backrooms of our minds
Stealing from a time when we were fine
A time I thought we'd left behind When you're starting to choke take some pills with your coke
It's hysterical
