

Some Days I'm Golden All Night

Josh Rouse

Some days I'm golden
Other days I'm bad
All depends on the weather
And how many drinks I've had But I keep on moving
Baby I can't slow down
Last few years it's been a struggle
To get along and hang around Now the city is fast asleep
I'll go up these empty streets all night
I'm getting older
Something something D:
I'll lean heavy on ambition
And I'll mostly feel amused But some days I'm golden
Other days I'm bad
It all depends on my wallet
And the lucky streak I've had Now the city's fast asleep
I'll go walk those disco streets all night Now is the right time
To set things straight
I'm not ready for an upstart
I'm too proud to make a change
But some days I'm golden
Some days I'm golden
Some day's I'm golden all night
All night
