Hexes (feat. Chino Moreno)

Bassnectar

You surprised me with a kiss
Underneath the crashing waves
You advised me with your tears
Then release your hexesRight back where you began
Torn apart from the inside
Race back into your skin
By the crawl you bringYou invite me into your face
In between the acid rains
Hypnotize me with your kiss
Then release your hexesRight back where you began
Torn apart from the inside
Race back into your skin
By the crawl you bring
By the crawl
By the crawl
By the crawl
By the crawl
By the crawl
By the crawl
