

Still Sounds Good

New Kids On the Block

Still sounds good to me
Like we were 17
So play that song for me, "Come on Eileen"
Still sounds good to me Ha 1989, a number, what a summer
Sound of a brother from another mother
Music hits your heart 'cause you knew it had soul
Why am I surprised you remember, us together
And all summer long 'til forever
Music hits you hard and you couldn't let go, oh no
And you said Oh, oh, oh
I wanna hear it, I wanna feel it
Oh, oh, oh
Still sounds good to me
Still sounds good to me
Like we were 17
So play that song for me, come on Eileen
Still sounds good to me 1989, a number, what a summer
Told you there would never be another
Knew it in your heart, knew it in your soul
I look in your eyes and remember, us together
Told you I'd be here forever
Music hits you hard and you couldn't let go, oh
And you said Oh, oh, oh
I wanna hear it, I wanna feel it
Oh, oh, oh
Still sounds good to me
Still sounds good to me
Like we were 17
So play that song for me, you know the one I mean
Still sounds good to me To the summer, summer, summer
To the "Careless Whispers" in the "Purple Rain"
To makin' "Modern love" in a Jefferson Airplane To the greatest of all time
To the Magic and Bird era
It's like we pressed rewind
To hangin' tougher than leather We fried it up like Glen 'cause "The Heat Is On"
We got Wilder like Gene 'til the PM dawn
Stayed on point like Fife, like "The Facts of Life"
You know the reasons, Maurice White Princess, we miss you, "may the force be with you"
Life ch-ch-ch-changes, Bowie
Rearranges Joey
Jordan, Danny and John, sing the hook, I'm gone Got a date, can't be late
I can't wait Still sounds good to me

Like we were 17
So play that song for me, "Come on Eileen"
Still sounds good to me
