

Lipslap

Kero Kero Bonito

coming on
thumbman four finger tap laftaf
yeah you know it
a fingertip laced on the lip which gave a little shhh
maybe were talk about that not now you see im jacking
all my friends are here there's just no time for taboo
can't believe we have to wrap on tracks so you get it
wanna talk about so much stuff then you just give me hush
we can't sort that out for now the place is packing
spending cash on a new dancefloor
and everyone's come through
it's all lipslap
thinking caps
just lipslap
that is that
instrumental

I can't hear you cause this beat is taking over
I'm not one to lipread and you don't come with subtitles
you sure talk the walk into your walkie talkie
but you can't keep a secret and you never get a word in
uhhh
why don't you keep me in the loop I like it posted
you stay here and watch an all brick wall get freshly painted
if you didn't catch the facts I'll repeat them
but to be as smart as me you have to know the slang
yeah

it's all lipslap
thinking caps
just lipslap
that is that
instrumental
I--- went straight through a tincan
tied up to a goldfish tank
watch them pass for the whisper
take turns seing were it lands
it's all lipslap
get down
thinking caps
what
just lipslap
be proud
that is that

it's all lipslap
thinking caps
just lipslap
yeah
that is that
instrumental

I--- went straight through a tincan
tied up to a goldfish tank
watch them pass for the whisper
take turns seeing where it lands
