

Numb

Phora

I know I haven't been myself lately
I've been feeling like someone else lately
It's prolly this empty colt 45 thats numbing the pain inside
Cause truthfully I ain't felt lately
I'm still a sinner I'm losing myself I need a sign
I needed space, I needed love, I needed time
And I never understood how you can treat me so heartless
Until I realized you just needed mine
That's what I mean by loving you never helps
Cause I just can't decide on loving you or myself
I just pushed away because I drew a line and you crossed it
Crossing out my exes and exing all of my losses, I know
What it's like to lose somebody you love
I know what it's like to lose yourself to the drugs
I know what it's like to have to let go of someone
Cause they hurt you so bad that you're not the person you was
They will never feel what I feel
In a world so fake I just need something that's real
I've been dying to live, the devil shooting to kill
I just can't help to wonder if you think of me still
See I've been losing my mind
I've been losing everybody I believed in
Anxiety suffocating me, I'm barely breathing
I'm coping with the pain
Hoping the rain stop because it reminds me of the day you said you leaving
We always seem to run from the ones who love us the most
And we never open up because we scared to get close
We running from the past, we numb ourselves hoping that it'll last
Cause you left me when I needed you the most
I said we always seem to run from those who love us the most
And never open up because we scared to get close
We running from the past, we numb ourselves
We just hoping it'll last
Cause I know what it's like to lose a person you love
And I know what it's like to lose yourself to the drugs
Yeah I know what it's like to lose a person you love
And I know what it's like to lose yourself to the drugs
Yeah I know what it's like to lose a person you love
