

# Left, Right, Left (Radio Edit)

## Drama

Ohh, I been hurtin' lately  
I'm down on all my luck  
Sometimes there's no one there by your side  
I don't deserve this baby  
But I know that I can't give up  
Tough times I just take them in stride  
Hmmm, I'm almost there, only one more step  
(Left, right, left, right, left)  
I'm moving on, I got no regrets  
(Left, right, left, right, left)  
I said times are changing, tell me how can I keep up  
Every time that I turn around there's a wall  
But I'm climbing daily, until I see the top  
And I get up right after every fall  
When you're brokenhearted  
And you're lost without me  
Yeah you gotta walk alone, yeah it's true  
Flash every smile cause I've been lost for miles  
I know you've felt this way before too  
We're almost there baby one more step  
Woah, left, right, left, right, left  
We're moving on, we got no regrets  
Woah, left, right, left, right, left  
Woah, left, right, left, right, left  
Woah, left, right, left, right, left  
Woah, we're almost there only one more step  
Woah, left, right, left, right, left  
Mmm I know it looks like it's too far  
But it's nothing compared to how far we've come  
Walking down this boulevard  
When the darkest times come right before the sun  
We're almost there baby one more step  
Woah, left, right, left, right, left  
We're moving forward and there's no regrets  
Woah, left, right, left, right, left  
Woah, left, right, left, right, left  
Woah, left, right, left, right, left  
We're almost there only one more step  
Woah, left, right, left, right, left  
Woah, left, right, left, right, left  
Woah, left, right, left, right, left  
Woah, left, right, left, right, left  
We're almost there only one more step  
Woah, left, right, left, right, left
