

# Treatment

## Labrinth

(oh baby, oh oh baby) Cowgirl, cowgirl why'd you leave me high and dry  
You had a heart but then you put a hole in mine Listen  
I wanna break down  
You don't understand the damage you've done now  
Let me remind you that  
I had a heart and you came inside  
Turned the whole place upside down Now I'm out of my mind  
Rocking chair, mental asylum  
Everyone dressed in white  
I really think I lost it this time  
Yeah, I wanna break down  
You don't understand the damage you've done now  
Let me remind you that boys don't cry  
Isn't it clear that I need treatment?  
Oh baby, oh oh baby  
Oh baby, oh oh baby All day all night, see I could go from dusk till dawn  
Thinking about how you left me crushed and torn I wanna break down  
You don't understand the damage you've done now  
Let me remind you that  
I had a heart and you came inside  
Turned the whole place upside down Now I'm out of my mind  
Rocking chair, mental asylum  
Everyone dressed in white  
I really think I lost it this time  
Yeah yeah, I wanna break down  
You don't understand the damage you've done now  
Let me remind you that boys don't cry  
Isn't it clear that I need treatment  
Cos I'm inside it  
The membrane eh  
So crazy  
You make me yeah  
I'm inside it  
The membrane eh  
Look what you  
Created And I'm inside it  
The membrane yeah  
So crazy  
You make me yeah  
I'm inside it  
The membrane yeah  
Look what you

Created Far into ... Look what you did.  
Ohhh Ohhh  
Look what you did.  
My baby oh no no.  
Isn't it clear that I need treatment? Treatment Eh eh eh I need treatment Waoh oh oh oh I'm out of  
my mind  
Rocking chair, mental asylum  
Everyone dressed in white  
I really think I lost it this time  
Yeah yeah, I wanna break down  
You don't understand the damage you've done now  
Let me remind you that boys don't cry  
Isn't it clear that I need treatment
