

So Tied Up (feat. Bishop Briggs)

Cold War Kids

You can't cut me loose until you show me
I told you the truth about the old me
And now you use confession as the proof
Do what you have to do
Go ahead and act the fool What if in the end
You want so bad to forgive
But you cannot forget So (so tied up)
We've been here before
I'm so (so tied up)
You want something more
Lover, best friend, my worst enemy
You know I won't let you get away
I get you to swerve out of the fast lane
You still got champagne running through your veins
You dare me to step up and challenge you
Neither one of us can stand to lose
Stand to lose Remember we said, it'd be like after the rain
Washes away our sins
They never said that love is a twisted game
And no one ever wins So (so tied up)
We've been here before
So (so tied up)
You want something more
Lover, best friend, my worst enemy
You know I won't let you get away
So, so, so tied up
So, so, so, so tied up
So, so, so tied up
So, so, so, so tied up You threw me a rope
Opposites attract
I'm self absorbed and you're superficial
We wound each other up
Being true to yourself could never be enough (So, so, so tied up) I tried to let go
(So, so, so, so tied up) We've been here before
Lover, best friend, my worst enemy
You know I won't let you get away So tied up
So tied up
So tied up
So tied up
