Gary Jules

Trapped a dragon west of Chinatown for fire-eaters up in Hollywood

My little sister took a picture of God and floated away

RIDE - downtown Los Angeles

RIDE - downtown Los Angeles

When your hands are broken

When your words are slipping

Put your arms around him

And go ... down

Hide your money in the other hand

(Observations of a regular)

Towers floating on a seat of ghosts...

It's always the same, I told you

RIDE - downtown Los Angeles

RIDE - downtown Los Angeles
