This Time

Carrie Underwood

Maybe it's the way that the stars are aligned That's makin' me feel this way tonight Maybe it's the words you left unsaid Maybe it's the stardust in my headBut I wanna tell ya That my heart is busting at the seams, yeah and I can't wait another minute Life is short. love is sweet Ain't no time like this time babyMaybe it's the way that the night is still Or the sound of the rain on my windowsill That's making all the pieces fit Makin' it all make perfect sense But I wanna tell ya That my heart is busting at the seams, yeah and I can't wait another minute Oh, life is short, love is sweet Ain't no time like this time babyOoh, yeahGoes by so fast Can't get it back There ain't no time Like this timeYeah, I just wanna tell ya That my heart is busting at the seams, yeah and I can't wait another minute Oh, life is short, love is sweet Ain't no time like this time babyMy little baby Maybe it's the way that the stars are aligned And there ain't no time Ain't no time Ain't no time Like this time babyOoh yeah Maybe it's the way that the night is still Or the sound of the rain on my windowsill, yeah, yeah Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
