

Go Fast

Indiana

(Take me in your car & go fast)
(Take me in your car & go fast)She takes a hit and her body convulses
No more hurt, she's just a girl
She's trying hard to assemble the pieces
Lost her nerves, the image blurredShe comes alive at danger size
A smile on her face cause she barely survived
She's going out of this world
And she's coming by wide on a hideShe says
(Take me in your car & go fast)
She says
(Take me in your car & go fast)
She says
(Take me in your car & go fast)
Without risk there is no redemption
Without doubt there is no rewind
She sat her bags where she's (?)
Without risk there is nothing at allThere is no future, there is no way
In deadly moments feels like the last
She likes to lose control, strong out & overdose
I tremble and (?)She says
(Take me in your car & go fast)
She says
(Take me in your car & go fast)
She says
(Take me in your car & go fast)(?) fade away(There is no future, there is no way)
(Take me in your car & go fast)
(Take me in your car & go fast)
(Take me in your car & go fast)
(Take me in your car & go fast)
(Take me in your car & go fast)
(Take me in your car & go fast)
(Take me in your car & go fast)
(Take me in your car & go fast)
