

# Last Year

## Borgore

This won't be my last year, see this is a promise  
Five years in, I'm still here. I'm gonna win, I got this  
Even if I die tomorrow, I still promise you.  
Maybe twenty years your dada will be playing with my hologram.  
This won't be my last year, see this is a promise  
Five years in, I'm still here. I'm gonna win, I got this  
Even if I die tomorrow, I still have a legacy  
Your dada will rave to my songs while getting turnt on ecstasy. This won't be my last year cause  
I still have plans  
I want my SLS, a leopard costume Benz  
I wanna party hard, I wanna have a chance  
I wanna get drunk, I wanna fuck bitches  
I want Taylor Swift to send me nude pictures  
I want more money, I want more power  
Fuck the Trump, I want my own tower  
I made it to the top, with my middle finger  
If you don't like me then I don't like you either  
This won't be my last year, the turn up just won't let me  
I'm not yet a father but your sister calls me (daddy) This won't be my last year, see this is a  
promise  
Five years in, I'm still here. I'm gonna win, I got this  
Even if I die tomorrow, I still promise you.  
Maybe twenty years your dada will be playing with my hologram.  
This won't be my last year, see this is a promise  
Five years in, I'm still here. I'm gonna win, I got this  
Even if I die tomorrow, I still have a legacy  
Your dada will rave to my songs while getting turnt on ecstasy. This won't be my last year, I  
wanna be the president  
I wanna see more tits than a plastic surgeon  
I wanna swim in cash, I wanna swim in papers  
I want to buy a lake, I want to buy the Lakers  
I made it to the top, with my middle finger  
If you don't like me then I don't like you either  
This won't be my last year, the turn up just won't let me  
I'm not yet a father but your sister calls me (daddy) This won't be my last year, see this is a  
promise  
Five years in, I'm still here. I'm gonna win, I got this  
Even if I die tomorrow, I still promise you.  
Maybe twenty years your dada will be playing with my hologram.  
This won't be my last year, see this is a promise  
Five years in, I'm still here. I'm gonna win, I got this  
Even if I die tomorrow, I still have a legacy

Your dada will rave to my songs while getting turnt on ecstasy. This won't be my last year  
This won't be my last year  
This won't be my last year  
This won't be my last year
