

In Her Eyes

Basshunter

It's a Saturday night
Nothing will go wrong
But if it does, do I care
I just don't know how to run
It's a Saturday night
And I hope you believe
My heart is calling your name
So hear me out when I say
I can see it in her eyes
When she turns to me and smiles
Everything feels so right
Until the morning light
(repeat)
Are you ready to party?
It's a Saturday night
Nothing will go wrong
But if it does, do I care
I just don't know how to run
It's a Saturday night
And I hope you believe
My heart is calling your name
So hear me out when I say
I can see it in her eyes
When she turns to me and smiles
Everything feels so right
Until the morning light
(repeat)
Are you ready?
I can see it in her eyes
