

# In Her Eyes

## Basshunter

It's a Saturday night  
Nothing will go wrong  
But if it does, do I care  
I just don't know how to run  
It's a Saturday night  
And I hope you believe  
My heart is calling your name  
So hear me out when I say  
I can see it in her eyes  
When she turns to me and smiles  
Everything feels so right  
Until the morning light  
(repeat)

Are you ready to party?  
It's a Saturday night  
Nothing will go wrong  
But if it does, do I care  
I just don't know how to run  
It's a Saturday night  
And I hope you believe  
My heart is calling your name  
So hear me out when I say  
I can see it in her eyes  
When she turns to me and smiles  
Everything feels so right  
Until the morning light  
(repeat)  
Are you ready?  
I can see it in her eyes
