Summer Shudder

<u>AFI</u>

Listen when I say, when I say it's real Real life goes undefined, why must you be so missable? Everything you take makes me more unreal Real lines are undefined, how can this be so miserable?Under the summer rain I burned away Under the summer rain, burn You turned awayListen, I can't make, make a sound or feel Feel fine, I kissed the lies, why must they be so kissable? Listen as I break, break the fourth wall's seal Gorgeous eyes shine suicide, when will we be invisible? Under the summer rain I burned away Under the summer rain, burn We burned awayUnder the summer rain I burned away Under the summer rain, burn You turned awayThis is the fall, this is the long way down And our lives look smaller now, and our lives look so small This is the fall, this is the long way down And our lives look smaller now, and our lives look so smallUnder the summer rain I burned away Under the summer rain, burn We burned away Under the summer rain, burn I burned away Under the summer rain, burn You turned away Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
