## The Clash

You know he just heard  
The drums of war  
when the past  
Was a closing door The drums beat into the jungle floor (Chorus:)  
Closing door  
Closing door Rain on the leaves  
soldier sing  
You never hear anything They filled the sky with a tropical storm. (Chorus)  
You know he head the drums of war  
Each man knows what he's looking for
