

Life Is Better With You

Eskimo Joe

Hey, whatever happened to you last night?
We thought we lost you there
Those long days
And long, long nights
They keep you up inside Stay awake all night talking about our friends
It never ends
Always do it when we're drunk
I just need some kind of meditation
Keep my feet from
Falling off the ground La-la, la-a-a-a
Life is better with you
La-la, la-a-a-a
Life is better with you
Ooh, ooh, yeah
See the people on the street
Hear the sound of defeat
It just seems to me we know too many people
It makes the ones we love seem great La-la, la-a-a-a
Life is better with you
La-la, la-a-a-a
Life is better with you
Ooh, ooh, yeah It happens all the time
The people pass you by
Like everyone you knew
They are changing through and through
You really didn't think it would last
But that's all in the past
La-la, la-a-a-a
Life is better with you
La-la, la-a-a-a
Life is better with you (La-la, la-a-a-a) See the people on the street
(Life is better with you) Hear the sound of defeat
(La-la, la-a-a-a) Like everybody that you know
(Life is better with you) Say they all want you to go La-a-a-a
Life is better with you
La-la, la-a-a-a
Life is better with you La-a-a-a
Life is better with you
La-la, la-a-a-a
Life is better with you La-a-a-a
Life is better with you
La-la, la-a-a-a

Life is better with you
