

We Choose

Her

We choose
The way we'll be remembered
No you
Won't smoke me to embers We choose
You're not the one guiding
No you
Can't be denying I think I think we could do anything
Our wings are broke
But we'll keep on gliding
I think I think we could do anything
Our wings are broke but we'll keep on gliding
We refuse
To be the one dying
No you
Can't be denying We choose
It's time to subside
Our muse will never die I think I think we could do anything
Our wings are broke
But we'll keep on gliding I think I think we could do anything
Our wings are broke
But we'll keep on gliding We choose
We choose
Our muse will never die
I think I think we could do anything
Our wings are broke
But we'll keep on gliding I think I think we could do anything
Our wings are broke
But we'll keep on gliding
