

# Can You Feel It

Kem

For every woman that needs a man  
There's a man that needs you too, oh, baby  
Maybe I'm the man for you You hear my heart, you fill my life, you make my day  
I'm more in every way, my baby  
'Cause you open me Can you feel it?  
I care for you, I wanna hear from you, oh, that's all I want  
Me lovin' you 'cause I'll be there for you Can you feel it?  
I miss you, I'm reminiscing too, our love is strong  
Girl, I just wanna be with you  
Can you feel it?  
The days go by, the nights are long  
But I refuse to let you go  
Maybe I'm crazy  
(Maybe a lil' crazy sometimes, I know)  
Or maybe no one loves you better With all my love, all my time, with all my heart  
My soul, my mind, I will be here, I will be here  
I'm waiting for you, waiting for you, baby, faithfully Can you feel it?  
I care for you  
I wanna hear from you, oh, that's all I want  
Me lovin' you 'cause I'll be there for you Can you feel it?  
I miss you  
I'm reminiscing too, our love is strong  
Girl, I just wanna be with you  
Can you feel it?  
What's best for you, it's better for me too  
Girl, I was wrong for not lovin' you  
I wanna stay with you Can you feel it?  
You got me hypnotized, my baby's on my mind  
Girl, please come home  
I'll do whatever you, you wanna do I'll never leave you and I'll never lie  
I'll be faithful all my life  
Can you feel it, girl? Baby I'll give you all my love and all my time  
I'll give you all my world  
Can you feel it, girl? Baby Can you feel it?  
I care for you  
I wanna hear from you, oh, that's all I want  
Me lovin' you 'cause I'll be there for you Can you feel it?  
I'm missin' you  
I'm reminiscing too, our love is strong  
All I wanna do is be with you Can you feel it?  
What's best for you, it's better for me too  
Girl, I was wrong for not lovin' you

I wanna stay with you Can you feel it?  
You got me hypnotized, my baby's on my mind  
Girl, please come home  
I'll do whatever you, you wanna do Can you feel it?  
I care for you  
I wanna hear from you, oh, that's all I want  
Me lovin' you 'cause I'll be there for you Can you feel it? I'm missin' you  
I'm reminiscing too, our love is strong  
Girl, I just wanna be with you Can you feel it?  
What's best for you, it's better for me too  
Girl, I was wrong for not lovin' you  
I wanna stay with you  
Can you feel it?  
You got me hypnotized, my baby's on my mind  
Girl, please come home  
I'll do whatever you, you wanna do  
All my love, all my life, all my time, baby  
Can you feel it, girl? Baby  
Can you feel it, girl? Baby  
Do you feel it like I feel it, girl?  
Can you feel it, baby? Hey girl  
Baby, baby, baby, baby, you  
Can you feel it, baby?  
Can you feel it?  
Do you feel it like I feel it?  
Hey girl, I know it's like that some times  
But I feel it, baby, I feel you
