

# Losing War

## Sick Of It All

Tough times will erode our conditioned, frail souls  
Tough times will erode our conditioned, frail souls This erosion will always be  
An unwelcome reality  
What's ahead is cut and dry  
Looming like a blackened sky How do you fight a losing war  
The single encouragement is damage control  
How do you fight a losing war  
Improvise in trying times  
Bending the rules  
Tough times will erode our conditioned, frail souls  
Tough times will erode our conditioned, frail souls Wear erosion like a badge  
Tune out the lousy effect it's had  
An ironic victory  
Consolation's bittersweet How do you fight a losing war  
The single encouragement is damage control  
How do you fight a losing war  
Improvise in trying times  
Bending the rules as you go What's been keeping us going this far, These times  
These moments, The good life,  
Remembrance, in tough times What's been keeping us 'round this long, These times These  
moments, The good life  
Remembrance, in tough times
