

# Play (feat. Jade Novah)

## Todrick Hall

Tell me is it too soon  
To be thinking bout you  
Kinda like I always do  
Tell me how did you find  
Your way into this heart of mine  
How do ya change my hearts design? And baby is it too soon to call you baby  
Cos its too late to tell these rebel  
hearts that they've lost their minds  
Do you want me circle yes, no, or maybe  
And is it okay to see my future in your eyes They say that love is for fools its a dangerous game  
Honey we're breaking the rules in this love arcade  
Coz I'm wishing and praying and hoping  
Knowing my heart will be broken  
Darling my love is your token  
Do you, do you wanna play?  
Maybe its not too late  
To turn back and walk away  
But I kinda wanna stay  
Maybe you could be mine  
In another life time  
Baby we could cross the line And baby is it too soon to call you baby  
Cos its too late to tell these rebel  
hearts that they've lost their minds  
Do you want me circle yes, no, or maybe  
And is it okay to see my future in your eyes They say that love is for fools its a dangerous game  
Honey we're breaking the rules in this love arcade  
Coz I'm wishing and praying and hoping  
Knowing my heart will be broken  
Darling my love is your token  
Do you, do you wanna play?  
Cos what the world don't know won't hurt em  
(Willing to fight, willing to die)  
Let our secrets know they heard them  
(Im ready to leave it all on the line)  
Let the bridges go and burn them  
And you and I will fly to a secret island  
I'll be yours and you'll be mine  
And live my once upon a time  
Day and night by your side  
Laugh and cry till we're older  
Until the game is over They say that love is for fools its a dangerous game  
Honey we're breaking the rules in this love arcade

Coz I'm wishing and praying and hoping  
Knowing my heart will be broken  
Darling my love is your token  
Do you, do you wanna play?
