

# She's Beautiful

Darius Rucker

Have you ever seen  
A prairie wind make a wave  
On a wheat field  
Bringing needed rain Have you ever seen  
A mama stop a baby's cry  
With just the touch  
And a whisper of his name When she looks at me  
That's what I see She's beautiful like that  
Like a winter rose, snow on the ground  
I was blessed the day I found her  
I'm one lucky man  
'Cause the more I know, the more I need her  
The more I love, the more I see  
Her heart is a shining star She's beautiful like that Have you ever seen  
A purple sky, sun coming up  
Bringing new life  
To everything it shines on Have you ever seen  
A couple after fifty years  
Laughing and holding hands  
Still going strong Well, the reason why  
I'll love her 'til the day I die She's beautiful like that  
Like a winter rose, snow on the ground  
I was blessed the day I found her  
I'm one lucky man  
'Cause the more I know, the more I need her  
The more I love, the more I see  
Her heart is a shining star She's beautiful like that The sound of a church bell  
The road that leads back home  
An unspoken promise  
You'll never be alone She's beautiful like that  
Just like a winter rose, snow on the ground  
I was blessed the day I found her I'm one lucky man  
'Cause the more I know, the more I need her  
The more I love, the more I see  
Her heart is a shining star She's beautiful like that  
She's beautiful like that  
She's beautiful like that
