

# Glitter

## 070 Shake

Sebastian

If this lasts longer than the song or the nightclub, I don't know  
It wasn't made for you to swim or you to want to get deep, you're only shallow  
Very careless I have been, this sweater ninety-six  
Ask before my tour, before I even exist, before I even exist  
Before I even existed, yeah, before I even existed Did I want to get rich, did I want to live?  
Did I want to bring what I got to the block  
To the block like this, like this, like this?  
Did I even exist, did I want to live?  
Did I want to bring what I got to the block  
To the block like this?  
And the people that I met make it bigger  
And I can promise you I'm doin' better  
And I can't leave you much, just this glitter  
And I can't leave you much, just this glitter, just this glitter  
All over your body (this glitter)  
All around your body  
All the sudden this, all day  
That's twenty-four hours outside of the gym  
It's been nineteen tears to nineteen years  
And now is that you wanna question  
How, when, where, and who I have been  
This time I don't be losin' my head  
Truth is I don't wanna lie again  
Truth is I wanna find myself again  
Tell my friend, my friend  
When I did lose it? My friend  
Tell my friend, my friend, my friend  
When I did lose it, lose it again?  
I've been drinkin' lots to forget about the news  
I know when I sober up I'll have to pay my dues  
My friend, my dearest friend  
When did I lose it? Ah Did I want to get rich, did I want to live?  
Did I want to bring what I got to the block  
To the block like this, like this, like this?  
Did I even exist, did I want to live?

Did I want to bring what I got to the block  
To the block like this? And the people that I met make it bigger  
And I can promise you I'm doin' better  
And I can't leave you much, just this glitter  
And I can't leave you much, just this glitter, just this glitter  
All over your body (this glitter)  
All around your body All over, all over your body, all over your body  
All over your body, your body  
All over your body, your body  
My friend-end-end-end, end-end-end, end, end-end-end  
Friend-end-end-end, friend-end-end, friend, end-end-end  
Friend-end-end-end, end-end-end, end, end-end-end  
Friend-end-end-end, friend-end-end, friend, end-end-end, end
