

# A World Alone

Lorde

That slow burn waits while it gets dark  
Bruising the sun  
I feel grown up with you in your car  
I know it's dumb We both got a million bad habits to kick  
Not sleeping is one  
We're biting our nails, you're biting my lip  
I'm biting my tongue  
But people are talking, people are talking  
But people are talking, people are talking Raise a glass, cause I'm not done saying it  
They all wanna get rough, get away with it  
Let 'em talk, cause we're dancing in this world alone  
World alone, we're alone  
All my fake friends and all of their noise  
Complain about work  
They're studying business, I study the floor  
And you haven't stopped smoking all night  
Maybe the Internet raised us, or maybe people are jerks  
But people are talking, people are talking  
But not you  
But people are talking, people are talking Raise a glass, cause I'm not done saying it  
They all wanna get rough, get away with it  
Let 'em talk, cause we're dancing in this world alone  
World alone, we're alone All the double-edged people into schemes  
They make a mess, then go home and get clean  
You're my best friend and we're dancing in a world alone  
A world alone, we're all alone  
I know we're not everlasting  
We're a trainwreck waiting to happen  
One day the blood won't flow so gladly  
One day we'll all get still, get still  
People are talking, people are talking... Raise a glass, cause I'm not done saying it  
They all wanna get rough, get away with it  
Let 'em talk, cause we're dancing in this world alone  
World alone, we're alone All the double-edged people into schemes  
They make a mess, then go home and get clean  
You're my best friend and we're dancing in a world alone  
A world alone, we're all alone But people are talking, people are talking...  
But people are talking, people are talking...  
But people are talking, people are talking...  
Let 'em talk
