

Baby Make It Soon

Marmalade

If you're coming home, like your letters say
And the place you're staying now, ain't too far away
Can you write tonight, just to let me know
Cos since you've been away girl, I've missed you so
You won't let me down, cos I'm sure you're homeward bound
And you'll be back safe and sound, cos I just know
Baby make it soon, make it soon (I can't wait another day)
Baby make it soon, make it soon (Lord I know I need you, come on)
Baby make it soon, make it soon (I need you right away)

Baby make it soon, make it soon (Lord I've gotta see you)
Right back here, here in my arms
If you're coming home like you promised to
Will you write tonight and tell me what you're gonna do
For I'm lonely now and I'm gonna stay that way
Till I hold you so tightly in my arms again
You won't let me down, cos I'm sure you're homeward bound
And you'll be back safe and sound, cos I just know
Baby make it soon, make it soon (I can't wait another day)

Baby make it soon, make it soon (Lord I know I need you, come on)
Baby make it soon, make it soon (I need you right away)
Baby make it soon, make it soon (Lord I've gotta see you)
Right back here, here in my arms
You won't let me down, cos I'm sure you're homeward bound
And you'll be back safe and sound, cos I just know - Whoa -oh
Baby make it soon, make it soon (I can't wait another day)
Baby make it soon, make it soon (Lord I know I need you, come on)
Baby make it soon, make it soon (I need you right away)
Baby make it soon, make it soon (Lord I've gotta see you)
Come back baby
Baby make it soon, make it soon (Lord I've gotta see you)
Come on baby
Baby make it soon, make it soon (I've gotta see you)
Baby make it soon, make it soon (Lord I know I need you)
Come on baby
Baby make it soon' make it soon (Lord I've gotta see you)
