Pale Moonlight (How Many Times)

Stephen Marley

How many times I told you I love you? And now you wanna say that we are through What more can I do?

What more can I say to you? Now you're gone

Do you remember that first night we met? That was a moment I never will forget

Love was at first sight, and you came walking through the pale- pale moonlight

P-p-pale, p-p-pale, Pale moonlight

Do-do-do-wapchoo-wapchoo wap do (x3)

Stoodildoodlewapchoo -wapchoo wap do

How many times I told you I love you

But now you want say that we are through

What more can I do?

What more can I say to you? Now you're gone

Do you remember that first night we met?

That was a moment I never will forget

Love was at first sight, and you came walking through the pale- pale moonlight

P-p-pale, p-p-pale, Pale moonlight

Do-do-do-wapchoo-wapchoo wap do (x3)

Stoodildoodlewapchoo -wapchoo wap do

How many times I told you I love you

But now you want say that we are through

What more can I do?

What more can I say to you...?
