## Sparks after the Sunset (with Sarah Lynn)

## **Cosmic Gate**

ft. Sarah Lynn I see the lightning in display Where we are I feel the energy Ive been a cold ice without you But now My heart is open Do these flames rise higher Above the smoke Will you feel The sparks after the sunset And stay close To see the fire burn See the fire burn Will you feel The sparks after the sunset And stay close To see the fire burn Will you stay And wrap your arms around me Stay close To see the fire burn See the fire burn
