

# Looking Like Danger

## New Kids On the Block

Upside down, you make it hard to be faithful  
Hard to be faithful, hard to be faithful  
Just my type of love, just when I find a girl  
That comes to club, trying to throw my world  
Upside down, you make it hard to be faithful  
When you look like that and your body's like crazy  
Can't figure you out cause you like an angel  
But the devil comes out when you dance with me, baby  
If I go to looking like danger  
Let me stay there, far away, stuck to me, yeah  
There she goes, looking like danger  
Can get you out of my mind, she's stuck to me, yeah  
I can't lie, you make it hard to be honest  
Hard to be honest, hard to be honest  
Before I rock the floor, I really got to go  
Cause deep inside I know, you're nothing but trouble  
I can't lie, you make it hard to be honest  
When my girl's at home, got me acting so shady  
Can't figure you out cause you like an angel  
But the devil comes out when you dance with me, baby  
If I go to looking like danger  
Let me stay there, far away, stuck to me, yeah  
There she goes, looking like danger  
Can get you out of my mind, she's stuck to me, yeah  
Upside down, you make it hard to be faithful  
At home I got a baby, but you're tempting me  
I can't lie, you make it hard to be out  
But you're so good at what you do  
You do it perfectly (Upside down, you make it...)  
Upside down, you make it hard to be faithful  
At home I got a baby, but you're tempting me  
I can't lie, you make it hard to be out  
But you're so good at what you do  
You do it perfectly  
If I go to looking like danger  
Let me stay there, far away, stuck to me, yeah  
There she goes, looking like danger  
Can get you out of my mind, she's stuck to me, yeah
