My Oh My

Macklemore & Ryan Lewis

I used to sit with my dad in the garage That sawdust that pine sol and the moss Around every spring when the winter thaw We'd huddle around the radio twist the broken knob 710 AM no KJR

Dave Niehaus voice would echo throughout the yard couldn't have been older than 10 but to me and my friends the voice on the other end might as well have been God's 1995

the division series Edgars up to bat bottom of the 11th inning got the whole town listening swung on and belted the words distorted Joey Cora rounds third here comes Griffey

the throw to the plate's not in timemy oh my the Mariners win it Yes

> fire works they lit up ceiling in the king dome We had just made history.

And swung, Lined down the left field line for a base hit! Here comes Joey! Here comes Junior to third base! They're gonna wave him in! the throw to the plate will be....

Late! The Mariners are going to play for the American League Championship!!

I don't believe it!

It just continues! MY OH MY!

Laces woven barley holdin' that stitch the creases are time amongst the grime and the grit

Where the leather

he used to pound his fists

To some its just a mitt

but see that glove was him

Yep, tell me stories on the field with that sun stained brim

Blood under my chin

he taught me how to spit

Sunflower seeds back when me and my crew sun burnt arms Big league chew, yeah we were like the sand lot after dinner After practice we listen
to the M's in the kitchen
And if mom wasn't trippin'
come on dad
please I swear just one more inning
Voice went pump pump
through the system break out the Rye bread
its grand salami time
My oh My another victory yes
my city my city.
Childhood my life
watchin' Griffey right
under those lights

...

Under that light rain
gleaming in that night came, cant stop now
Keep moving no break pads came here to prove a point
live my life on the field
Make history in between the base path
and compete against the fear
that is in me that's my only barrier and I swear I'm going to break that

from the mud
the cleats that we drug threw the feet
this is that moment and you cannot take it back

I don't really collect

cards anymore

just a box and some old card board

Memories embedded in the dust
in the fighters that age just like us
livin' some where off in the drawer
this is what you make of it yeah we play to win
Live it like we're under the lights of the stadium
fight until the day that God decided to wave us in
right until he waves us in

It's my city my city childhood my life that's right right under those lights
My city my city childhood that's right Niehaus

My oh My come on, my city my city childhood my life that's right under those lights its my city my city childhood my life Niehaus My oh My Rest in peace.
