

# Fairytale

## Milky Chance

You are a fairy-tale  
Don't you wanna stay?  
You are a fairy-tale  
I hope that you don't run away We should run away  
I can hear them tapping on the ground  
Where do we wanna go?  
I know an ambush where we won't be found  
And so we went to the place, honey  
Listening to the all-night-singing-sweet-melodies-fairy trees  
And there was no better place to be  
And so we took off to the moon  
And all the shining lights  
In the night  
You are a fairy-tale  
Don't you wanna stay?  
You are a fairy-tale  
I hope that you don't run away You are a fairy-tale  
Don't you wanna stay?  
You are a fairy-tale  
I hope that you don't run away You are a fairy-tale  
Don't you wanna stay?  
You are a fairy-tale  
I hope that you don't run away  
You are a fairy-tale  
You are a fairy-tale  
You are a fairy-tale  
You are a fairy-tale  
You are a fairy-tale Hope you gonna stay You are a fairy-tale Hope you don't run away
