

Blackout

Freya Ridings

If you'd have just let me in
Who knows what could have been
They tell me to forget but I don't want to
Your face is all I seem too see
How can blackout you? Don't wanna hear my friends say
"Girl, you're better off anyway"
Cause I know that's not true, I want you
I wanted you to be the one who stayed
How can I blackout you, you, you?
How can I blackout you?
How can I blackout you? Pins and needles in my lips
No anaesthetic could make me numb to you
How can I blackout you, you, you?
How can I blackout you, you, you?
How can I blackout you, ooh, you?
How can I blackout you, ooh, you?
