

# Lost (feat. Janet Devlin) [Project 46 Remix]

Gareth Emery

And there's no smoke without reason  
It's a sign there's something wrong  
In my lungs there's a poison  
I've been breathing in too long  
'Cause there's no I  
No I in We  
And there's no You,  
No You in Me  
Cause I've been burned  
Way beyond the third degree  
Cause your words are like gasoline  
You pour on the fire  
and the bridges you burned  
Led to our dreams  
It's just another thing that we lost  
When the spark turned into a flame  
And the flames grew much higher  
And my hope, faith, and every last desire  
Is just another thing that we lost in the fire  
Just another thing that we lost  
Just another thing that we lost  
Just another thing that we lost  
Ashes fall just like snowflakes  
That are warm against my skin  
You say that we could re-build this  
Wouldn't know where to begin  
Cause there's no snow  
And there's no rain  
To hide my tears  
To douse these flames  
Cause I've been burned  
Way beyond the third degree  
Cause your words are like gasoline  
You pour on the fire  
And the bridges you burn  
led to our dreams  
It's just another thing that we lost  
When the spark turned into a flame  
And the flames grew much higher  
And my hope, faith, and every last desire  
Is just another thing that we lost in the fire  
Is just another thing that we lost in the fire

Is just another thing that we lost in the fire  
Is just another thing that we lost in the fire  
Is just another thing that we lost  
Just another thing that we lost  
Just another thing that we lost  
Just another thing that we lost  
Just another thing that we lost  
Just another thing that we lost  
Just another thing that we lost
