

# Every Time I See You

Luke Bryan

It's like a bolt of lightning hits me in my chest  
Right out of the blue  
Every time I see you, every time I see you  
Top of the world I'm standing rocking at my best  
Then I look like a fool  
Every time I see you, every time I see you  
You're like a wreck out on the highway  
I can't look away and I can't pass through  
You're like an early morning Monday  
Bringing me down, messing with my mood  
I'd love to say I can hold myself together  
But I can't help but come unglued  
Every time I see you, every time I see you  
I wanna tell you everything I ever wanted to say  
But I never do  
Every time I see you, every time I see you  
I'm sure my steering wheel and dashboard  
Would love a good break but they feel it too  
Every time I see you, why I gotta see you?  
You're like a wreck out on the highway  
I can't look away and I can't pass through  
You're like an early morning Monday  
Bringing me down, messing with my mood  
I'd love to say I can hold myself together  
But I can't help but come unglued  
Every time I see you, every time I see you, yeah  
Oh, you're like a wreck out on the highway  
I can't look away and I can't pass through  
You're like an early morning Monday  
Bringing me down, messing with my mood  
I'd love to say I can hold myself together  
But I can't help but come unglued  
Every time I see you, every time I see you  
Every time I see you, oh yeah  
Oh, I'm walking down the street  
And you walk right up to me and I freeze  
Every time I see you
