

# Super Natural (feat. Carly Rae Jepsen)

[Danny L Harle](#)

You can show me your favorite streets  
Late at night  
We lay in bed, fall asleep, side by side  
'Cause when I'm with you anywhere  
Baby, it doesn't matter  
I, I just don't care what we do  
Baby, it's all us  
How I feel, so unreal You gotta believe in me  
This isn't normal, not at all  
It's just like we don't try  
We just fit, you and I  
We are supernatural  
This is easy love  
Every day euphoria  
It's just like we don't try  
We just fit, you and I  
We are supernatural  
You, you got me all figured out, in every way  
You, you read my thoughts,  
Know what I want before I say  
And it's crazy how these little things  
Baby, they stop me breathing We could carry on if you want  
Baby, just keep believing in me  
This isn't normal, not at all  
It's just like we don't try  
We just fit, you and I  
We are supernatural  
This is easy love  
Every day euphoria  
It's just like we don't try  
We just fit, you and I  
We are supernatural  
How I feel, so unreal  
How I feel, so unreal  
Know it's true, me and you You gotta believe in me  
This isn't normal, not at all  
It's just like we don't try  
We just fit, you and I  
We are supernatural  
Supernatural  
You gotta believe in me  
This isn't normal, not at all

It's just like we don't try  
We just fit, you and I  
We are supernatural  
This is easy love  
Every day euphoria  
It's just like we don't try  
We just fit, you and I  
We are supernatural
