

# Good Guys, Night Time Mix

MIKA

It's not the cowboys that are missing anymore  
That problem was already old in '94  
Don't be offended this might seem a little wrong  
Where have all the gay guys gone? And to the romance when I was 14 years old  
And to my heroes that was dressed up in gold  
Only hoping one day I could be so bold  
Where have all the gay guys gone? If we are all in the gutter  
It doesn't change who we are  
'Cause some of us in the gutter  
Are looking up at the stars If we are all in the gutter  
It doesn't change who we are  
'Cause some of us in the gutter  
Are looking up at the stars  
So tell me  
Where have all the good guys  
Where have all the good guys  
Where have all the good guys gone? Where have all the good guys  
Where have all the good guys  
Where have all the good guys gone? Thank you Rufus, thank you Auden  
And James Dean  
Thank you Emerson and Bowie  
For my dreams Wilfred Owen, Kinsey  
Whitman and Rimbaud  
Thank you Warhol, thank you patience  
Thank you Porter and Cocteau  
If we are all in the gutter  
It doesn't change who we are  
'Cause some of us in the gutter  
Are looking up at the stars If we are all in the gutter  
It doesn't change who we are  
'Cause some of us in the gutter  
Are looking up at the stars So tell me  
Where have all the good guys  
Where have all the good guys  
Where have all the good guys gone? Where have all the good guys  
Where have all the good guys  
Where have all the good guys gone? If we are all in the gutter  
It doesn't change who we are  
'Cause some of us in the gutter  
Are looking up at the stars If we are all in the gutter  
It doesn't change who we are  
'Cause some of us in the gutter

Are looking up at the stars(Yeah, we are looking up at the stars)  
Where have all the good guys  
(Looking up at the stars)Where have all the good guys  
(Yeah, we are looking up at the stars)  
Where have all the good guys gone?  
(We're just looking up at the stars)(Yeah, we are looking up at the stars)  
Where have all the good guys  
(Looking up at the stars)Where have all the good guys  
(Yeah, we are looking up at the stars)  
Where have all the good guys gone?  
(We're just looking up at the stars)It's not the cowboys that are missing anymore  
That problem was already old in '94  
Don't be offended this might seem a little wrong  
Where have all the gay guys gone?
