Chasing You (feat. Soseh)

Capital Cities

Broken down on the side of the road
It'd be nice if you could help me out
I drove for miles to the place I was told
I could find you in the shadow of doubtBut you weren't there

(I was there)

You weren't there

(I was there)Chasing you

It's the only thing I want to do

But now I'm facing you

What the hell am I supposed to doIs it foolish to follow the rules when everybody's following you

You gave directions that make no sense and now I'm fucking stuck in a loop

But you're not there

I was there

You're not there

I was thereChasing you

It's the only thing I want to do

But now I'm facing you

What the hell am I supposed to doYou must think I'm a mannequin

Because I only come alive in my Sunday best

But somehow I'm on the run again

So you probably shouldn't hold your breath

Don't train yourself to be a fool

I only want to stick around if you pass the test

Don't cross the line

Stop chasing time

Cause in time you'll find that I-I-I'm just

Chasing you

Chasing you

Chasing you

It's the only thing I want to do

But now I'm facing you

What the hell am I supposed to doI'm

Chasing you

It's the only thing I want to do

But now I'm facing you

What the hell am I supposed to doChasing you

Chasing you
