

# Lean On Me

## Limp Bizkit

My world, your world, angry, happy  
Downward spiral, system breakdown  
Nauseous, panic, bring on havoc  
So reach out with patience  
And hold me while I hold you I can't solve your problems today, oh no  
But you can lean on me now Distance grows fonder, sincere I wonder  
Lover or ally, cleanse me, don't try  
Torture, cave in, bruise me 'til I say when  
'Cuz I've got no patience  
So hold me while I hold you  
I can't solve your problems today, oh no  
But you can lean on me now  
I can't solve your problems today, oh no  
But you can lean on me now I don't ever wanna see you cry no more, no more  
I don't ever wanna see you cry no more, no more  
I don't ever wanna see you cry no more, no more  
I don't ever wanna see you cry no more, no more  
(See you cry no more)  
No more, no more  
(See you cry no more)  
I can't solve your problems today, oh no  
But you can lean on me now  
I can't solve your problems today, oh no  
But you can lean on me now
