Confusion

Metallica

Wake to face the day Grab this life and walk away War is never done Rub the patch and battle on Make it go away Please, make it go awayConfusion All sanity is now beyond me Delusion All sanity is but a memory My life, the war that never ends Leave the battlefield Yet its horrors never heal Coming home from war Pieces don't fit anymore Make it go away Please, make it go awayConfusion All sanity is now beyond me Delusion All sanity is but a memory My life, the war that never endsFather, please come home Shell shocked all I've known Father, please come home Label him a deadwood soldier now Cast away and left to roam Rapid is the road to sacrifice Just takes longer to come home Come homeConfusion All sanity is now beyond me Delusion Crossfire ricochets inside me Trapped in a memory forever My life, the war that never ends
