

# Bones of Ribbon

## London Grammar

Take my efforts high above red hues  
Bones of ribbon don't stop me now  
Whites went blue, then went yellow  
Feet don't stop me now  
They found me there in the sands  
Bones of ribbon in my hands  
Whites went blue, then went yellow  
Pull off the cloak, time off the wall Take determination  
Take whatever you need  
'Cause your body's made of metal  
And your skin, it isn't real  
Found me there in the sands  
Bones of ribbon in my hands  
Whites went blue, then went yellow  
Please don't stop me now Take determination  
Take whatever you need  
'Cause your body's made of metal  
And your skin, it isn't real They found me there in the sands  
Bones of ribbon in my hand  
Whites went blue, and then went yellow  
And your feet don't stop me now  
Feet don't stop me now  
Well you know when you know, hey  
Oh no, do you know it enough, hey  
You won't know 'till you know it enough  
You won't know 'till you know you know it enough  
Feet don't stop me now  
Feet don't stop me now
