

Follow My Lead (feat. Eric B)

Chipmunk

Hi world, what's poppin'?
Tryna fight the game, they just cock blockin'
Aiming for the top and I am not stopping
They gassed up and I'm balloon poppin' Real leader, need help? Holla me
[Incomprehensible] if twitter had a twitter I bet it would follow me
Chyeaah, feel the presence when I come through
New or old, I run school And I was never blinded by the lights
But I've always had stars in my eyes
So whether open or closed my vision's in line
And maybe that's the reason why I'm one step ahead of you, never catch up to me
Everybody else is just following me
So just follow my lead, you can follow my lead
I'm a star, I'll show you the way
I'm one step ahead of you, never catch up to me
Everybody else is just following me
So just follow my lead, you can follow my lead
I'm a star, I'll show you the way Chyeaah, try test me on stage, you'll be left burning
I kill bills, Uma Thurman
You get tired diorrns, I get lie-in morns
You don't think you're the best, why you lying for? Cleaning up, caah, been a mess
Me, I never rest, I'm restless, I'm F up, you sexless
The vocabs are stubbing
Popstar, P.S. wordsmith, I'm killing it Gimme twenty five, then imagine my level
When I'm twenty five, scary times
MC's on my level, there's none
I don't feel anyone, I'm numb
And I was never blinded by the lights
But I've always had stars in my eyes
So whether open or closed my vision's in line
And maybe that's the reason why I'm one step ahead of you, never catch up to me
Everybody else is just following me
So just follow my lead, you can follow my lead
I'm a star, I'll show you the way I'm one step ahead of you, never catch up to me
Everybody else is just following me
So just follow my lead, you can follow my lead
I'm a star, I'll show you the way Yeah, and I'mma come up, they was running their mouth
And now they silent like the B in doubt, no doubt
I didn't wanna be the boy with the rhymes
That spent years in the game but never made no clout And when I see others' success I rate
To me enough of them, can't relate
It's cool, you ain't even gotta feel my pain
Just feel my rain I'm one step ahead of you, never catch up to me

Everybody else is just following me
So just follow my lead, you can follow my lead
I'm a star, I'll show you the way I'm one step ahead of you, never catch up to me
Everybody else is just following me
So just follow my lead, you can follow my lead
I'm a star, I'll show you the way I'm one step ahead of you, never catch up to me
Everybody else is just following me
So just follow my lead, you can follow my lead
I'm a star, I'll show you the way Follow my lead, you can follow my lead
Follow my lead, you can follow my lead
Follow my lead, you can follow my lead
I'm a star, I'll show you the way
