

# Makes Me Wanna Die

## Tricky

She makes me wanna die  
Follow where Mary goes  
Cherish the things she knows  
Says if I change my stride Then I'll fly  
She makes me wanna die  
And change my stride  
Then I'll fly Look to the sun  
See me in psychic pollution  
Walking on the moon  
And how could you dare? Who do you think you are?  
You're insignificant  
A small piece, an ism  
No more, no less  
You try to learn the universe  
And can't even converse in universe  
You know it's ironic  
Smoking hydroponic She makes me wanna die  
And change my stride  
Then I'll fly She makes me wanna die  
Follow where Mary goes  
Cherish the things she knows  
Says if I change my stride Then I'll fly  
And change my stride  
Then I'll fly Look to the sun  
See me in psychic pollution  
Walking on the moon  
And how could you dare?  
Who do you think you are?  
You're insignificant  
A small piece, a ism  
No more, no less You try to learn the universe  
And can't even converse in universe  
You know
