

Dream On Me

Ella Henderson & Roger Sanchez

Ella Henderson & Roger Sanchez Dream On Me[Intro]

You can dream, you can dream

You can dream, you can dream, dream

You can dream, you can dream

Dream, dream[Verse 1]

Take a breath, close your eyes

No you're not the only lonely one tonight

Yeah the scene is, oh so quiet

Got me thinking 'bout the memories of you and I

Hmm, hmm

[Pre-Chorus]

I miss the feel of your body

Now I'm layin' here with nobody, in my fantasies

I got your here with me

I wonder where is you sleepin'

Those butterflies you're feelin'

Catch me in your dreams, hey[Chorus]

When you need all the love

And your heart needs someone to lean on

Yeah to lean on

When you need all the love

And your head needs somewhere to sleep on

You can dream on

[Post-Chorus]

Dream on me

Dream on me

Dream on me

You can dream, you can dream

You can dream, you can dream, dream

You can dream, you can dream

Dream, dream[Verse 2]

No regrets, no mistakes

Let imagination carry us away

Feel the distance but that's okay

We're far apart but our hearts still beat the same (Oh, oh, oh, oh)[Pre-Chorus]

I miss the feel of your body

Now I'm layin' here with nobody, in my fantasies

I got your here with me

I wonder where is you sleepin'

Those butterflies you're feelin'

Catch me in your dreams, hey[Chorus]

When you need all the love

And your heart needs someone to lean on
Yeah to lean on (Lean on)
When you need all the love
And your head needs somewhere to sleep on
You can dream on[Post-Chorus]
Dream on me
You can dream, you can dream
You can dream, you can dream, dream
Dream on me
You can dream, you can dream
Dream, dream
Baby you can dream on me
You can dream, you can dream
You can dream, you can dream, dream
You can dream, you can dream
Dream, dream[Outro]
Take a breath, close your eyes
No you're not the only lonely one tonight
You can dream, you can dream (Ooh, ooh)
You can dream, you can dream, dream (Ooh, ooh)
Baby you can dream on me
You can dream, you can dream
You can dream, you can dream, dream
You can dream, you can dream
Baby you can dream
Dream, dream
You can dream, you can dream
You can dream, you can dream on me
You can dream, you can dream
Dream, dream
When you need all the love
And your head needs somewhere to sleep on
You can dream on
Dream on me
