

S.p.S

Kasabian

Even though I know it strong
It's time for us to get back home
Look how all the ours come
I hate for you to be alone
Let's play sticks and paper stone
Now it's only us to live
We lost a few good men on the way
Started out as quiet a crowd
Let tomorrow wait another day
Let tomorrow wait another day

()

Didn't we all have such a good time?
Didn't we all have the greatest night
The greatest night, the greatest night?
(Live the night you can remember)
(Live the night you can remember)

()

Didn't we all have such a good time?
Didn't we all have the greatest night
The greatest night, the greatest night?
